

CivilFEM Class3 Error report

ERROR NO: 2010-005

First incorrect version: 8.1

Corrected in: 13.0

Description of Error:

Due to ANSYS class 3 error 2010-19, terrain initial stresses could be computed incorrectly for the elements geometrically below the last 5 elements of the model (~TIS command).

Keywords: TIS

GUI Access: Main Menu > CIVIL Solution > Geotech. Mod. > Initial Stress > Create File

Suggested User Action For Running on Uncorrected Version:

Avoid using the last five elements of the model for the soil definition. If it is not possible, create 5 new elements independent from the soil to avoid this problem. These elements can be deleted once the Initial Stresses file has been created.

Comments:

This error will be corrected when ANSYS corrects error 2010-19. (Release 13.0)
